## Rheumatism,

BENIGN due to the presence of uric acid in the blood, is most frequently caused by the use of Ayer's Sarsaparilla, and takes it off so quickly and easily, that it will be impossible to get it thoroughly expunged from the system—*Washington Evening Star.*

"About two years ago, after suffering for nearly two years from rheumatic disease, and having tried various remedies, including mineral waters, I was advised to take Ayer's Sarsaparilla, and in a Chicago paper that a man had a pain, after long suffering, by taking Ayer's Sarsaparilla. I then decided to try it, and regularly for eight months, and am now in full health, and have had a complete cure. I have had no attack of the disease."—Mrs. R. Irving, of New York.

"One year ago I was taken ill with inflammatory rheumatism, being compelled to give up my business, and out of the sickness very much debilitated, with appetite, and my system failing. I was advised to take Ayer's Sarsaparilla, and began to use it regularly. It has given me a complete cure. I have had no attack of the disease."—Mrs. J. A. Stark, Nashua, N. H.

### A Haunted Locomotive.

An old colored man named House, who has been in the employ of the Louisville, St. Louis & Texas Railroad Company since the completion of the road to this city, serving the greater portion of the time as watchman, resigned his position several days ago, and nothing could induce him to continue in the service above the yards at night. The old man tells a clear and straightforward story concerning sights and sounds about the premises, which cannot be easily believed, pointing to some with more evidence than the present of specks. House tells about the mysterious ringing of the bell on one of the locomotives in the yard a few nights ago. Said he: "I was doing some work near where engine No. 105 was standing, when I heard the bell tap twice. I looked around, and seeing nothing, turned to resume my work. I had scarcely commenced when I was again disturbed by three more loud taps of the bell on the engine, and looking around I saw something that fairly took the kinks out of my hair. In the cab of the engine I saw a white form, which appeared to be peering out of the looking window, the eyes looked almost like balls of fire. I could not move to save my life, and it seemed as if the terrible thing was looking for me. It remained a few seconds and then disappeared. No, no, how can I get me to talk on such sights again."

A white fireman, who was present at the time the colored man was telling the story, said that he also heard the bell ring but saw nothing of the apparition described by House. He also stated that a few nights previous to that on his way from the engine to this city some white object, known to him as a ghost, crossed over the engine near Long's Crossing, which caused the engineer to stop his engine in fright.—*Henderson Ky. Spec. St. Louis Globe-Unc.*

The Truth—that is to say, the Louisville Truth—is a thing from which Judge Jackson should properly wish to be saved. Governor Buckner made out the aforesaid imputation on the personal or private character of Judge Jackson. It is still in question, whether the Governor's criticism was of an official act done in an official capacity or from the bench. With that the Governor was concerned, and it was his duty, as he understood it, to lay the matter before the Legislature.

The reply of Judge Jackson, it is to be regretted, was more bitter, and than his best friends must have wished. But his cause will be utterly overthrown if his friends indulge in personal attacks on the Governor, or if they do not at once and finally compel the stoppage of the attacks in Truth or openly disavow them.

The question in which the public is interested, is the truth or falsity of the charges made by the Governor in his message.

That question cannot be settled by attacks on private life, and concerning matters of occurrence many years ago.—*Congressional Commonwealth.*

### A Standard Report.

FLAMINGO, Ky., Jan. 13.—A meeting of the citizens of Flamingo, irrespective of creed, held at the Baptist Tabernacle, on Saturday evening, January 11, 1889, was convened to organize John W. Hoffa, William S. Faust, and W. H. Hendrick, were elected Chairman, and H. Dudley Secretary.

W. H. J. Hendrick moved the appointment of a committee of twenty-one to draft resolutions expressive of the sense of the meeting, as to the slanderous report which had been made to the public print in regard to the observance of the Week of Prayer here. Motion adopted.

The Committee unanimously agreed to the following report, which was adopted by the unanimous vote of the body:

"The rod of the New York hospital having failed to have a garden, probably enclosed in glass, where patients can enjoy the cool breezes that blow over the hospital grounds. Here there will be flowers, plants, an aquarium, seats and hand mucks."

During the recent floods at Anaheim, Cal., every hummock was swarming with hares and rabbits that were driven into the water by the inundation, captured by thousands by boys and men, who used sticks, and when tired of the sport would run the poor beasts off their dry places into the rushing water.

A hundred of milletids kept in the house during the whole year brought the house, so French people think. Many housewives consider it as important as the spirit of the season, based on the idea of a good harvest, and successively more quantities of milletids are sent to the Paris markets, chiefly from Normandy.

Everybody smokes in Japan. The Japanese hold a little wad of fine cut tobacco as big as a pea. It is fired, and the taker makes take one long whiff, blowing the smoke in a cloud from his mouth.

The ladies of the Japanese army longer smoke than the men, and if one of them wishes to show a gentleman a special mark of favor she lights his pipe, takes half a whiff, hands it to him and lets him finish out the whiff.

Mrs. Alice Sommers, the president's typewriter and stenographer, is able to type shorthand dictation at the rate of 200 words per minute. Her spelling is said to be absolutely perfect.

The King of Spain is so short in stature that when he is photographed with his queen, who is exceedingly tall, he invariably makes her sit down while playing cards. There has been taken of this royal couple on the beach, and then the king was mounted on a footstool, which was artfully concealed by the queen's train.

The late Empress Auguste, wife of the late Emperor Palmyre, was extremely fond of organ music, and not only frequently encouraged organ grinders to play before the palace, but also had several broken-down musicians on her payroll. It is said that he left a legacy of \$10,000 for the erection of a house for incapacitated itinerant performers.

Emperor William of Germany has a number of magnificient dolls, with complete array of silks, satins and cloth of gold, all of them dressed in elaborate description to the Princess Hatty, 6 years old, and favorite of the sultan of Turkey. The cost of these dolls is estimated at \$6,000.
